

# MAC SIG Newsletter

*A Monthly Newsletter for Mac Users at Sun City Grand*  
*Editor: Joyce Kloncz*

Art McCall is shown giving a presentation on OS X Tiger at the January 12, 2006, MAC SIG meeting at the Chaparral Center in Sun City Grand. Thirty-five MAC SIG members attended the session.

## Scrapbooking My Way

Please join us for our MAC SIG membership meeting on Thursday, February 9, at 4 PM at the Computer Room at the Chaparral Center.

MAC SIG member Jerry Rottier will be giving us a short program on how he has made a digital scrapbook for his family. We'll follow that with a short Q & A session from members.

We'll also distribute class info sheets, looking for your input on your needs for March classes. We're looking for instructors for these classes as well, so consider sharing your expertise with our MAC SIG group.

## Upcoming Classes

The MAC SIG is looking for input and instructors for the spring Macintosh classes. The following are some suggestions given by members:

- Appleworks Word Processing
- Appleworks Spreadsheet
- Appleworks Database
- Back-up Strategies
- Getting Your Money's Worth
- Alternatives to AOL
- Photoshop Elements 3.0
- Reunion 8.0
- Digital Scrapbooking
- OCR
- Safari Browser
- iPhoto, iDVD
- iMovie, iDVD
- iTunes, iDVD
- Dashboard
- Spotlight

Can you help teach? Interested instructors should contact either:

[ljkloncz@yahoo.com](mailto:ljkloncz@yahoo.com) or  
[galemccall@aol.com](mailto:galemccall@aol.com)

### Update on MAC SIG

Our group is growing! We are now up to 84 members and that's wonderful! We continue to hear from Mac users through either our emails on the web site or our signs at the Computer Club. We personally contact each of our new members and add them to our email listing and encourage them to join us at our monthly meetings. If you know of any Mac users that would like to join us, please encourage them.

At the Computer Club general membership meeting on February 1, a vote was taken by those present to approve the prior purchase of the 2 new iMac G-5s, new software, and new memory for the eMacs. The vote was unanimous for the purchases.

### CHECK OUT OUR NEW WEBSITE!

After purchasing the new web software iWeb from Apple, Joyce Kloncz has taken a stab at creating a new web site for the MAC SIG. Simply type in the URL below in your browser. This is a web site in-the-making so it is not yet complete and will be edited quite a bit. Suggestions from members are appreciated!

The site will be accessible at:

<http://www.grandcomputers.org>

Go to the MAC SIG page to access our page.

Our site is also accessible at:

<http://web.mac.com/ljkloncz1/iWeb/scgmactsig>

You will be able to go back and forth between the sites.

- This newsletter was composed on Apple's new software called iWorks, which contains a word processing and presentation element.

### Winter Classes a Success

Many thanks to instructors Art McCall, Gale McCall and Sharon Hoobler for teaching our winter classes. We had 65 registrants for our 12 classes. Sharon added two additional sections of Adobe Elements 3.0 to accommodate our Mac users.

Spring registration will be Saturday, March 11, at 9AM at the Chaparral Center. Class info and registration forms will be emailed to you or will be available at the Computer Club.

MAC SIG members at February 12 meeting

### Tech Talk

Each month on the first Tuesday of the month, the MAC SIG will be having a Tech Talk in which members can bring in any problems they're having with their computer and be able to sit down with one of us to help you solve that problem.

The MAC SIG will be doing this at the same time as the PC's Tech Talk.

Our first session will be Tuesday, March 7, 3-4 PM at the Computer Room.
