## Windows 10-11 Notifications

The screenshot shows a Windows notification shade with three notifications highlighted by blue boxes. Arrows point from text boxes to these notifications.

- Security notification from Windows Security**: Points to the first notification, which is a Microsoft Defender summary stating that no threats were found since the last scan.
- Maintenance notification to backup**: Points to the second notification, which is a warning about File History backup space.
- Notification of an incoming message**: Points to the third notification, which is a message from a contact with the number +15202302228.
