

# APPLICATIONS FOR ANDROID PHONE

Commonly referred to as  
**APPS**

# HOW TO FIND APPS

- ▶ When you are looking for an APP, the place to start is the Google Play Store. Some APPS are free, and some have a cost. To purchase any APP, an account with a Credit card, Debit Card or Gift card information should be set up before anything can be downloaded.

**Google Play**

# ADDING MONEY TO YOUR GOOGLE PLAY STORE ACCOUNT

Open Google Play Store

Tap on hamburger icon (three lines in top left corner on screen) or your profile picture.

Tap Payments & subscriptions and then tap on payment method.

Under payment method tap on add credit card or debit card. For Gift Card tap Redeem Code.

Next screen add your credit card number

Add year and date and CVC information

Tap done

The card will be saved to your Google Account

Now when you open Google Play Store and tap on payment you will see the card at the top of the screen.

From then on, you will be able to purchase any APPS.
